FLORIDA SCHOOL REPORT CARDS

QUICK START USER GUIDE

KNOWYOURSCHOOLSFL.ORG

THIS GUIDE IS DESIGNED AS A QUICK REFERENCE GUIDE TO HELP PARENTS AND THE PUBLIC NAVIGATE KEY COMPONENTS OF FLORIDA'S SCHOOL REPORT CARDS AND THE MAP AND COMPARE TOOL.

The Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act (ESSA), requires every state and district to publish report cards that show how the state, district and schools are doing with regard to student achievement and success. These report cards differ in content and format used in previous school report cards produced by the State of Florida. This guide is provided to assist parents and other users with navigating and using Florida's State, District and School Report Cards and the Map and Compare Florida Public Schools Tool.

NAVIGATION

The **Know Your Schools Portal** provides several navigation options that allow you to map and compare Florida public schools and to view report cards. Go to

<http://knowyourschoolsfl.org/>.

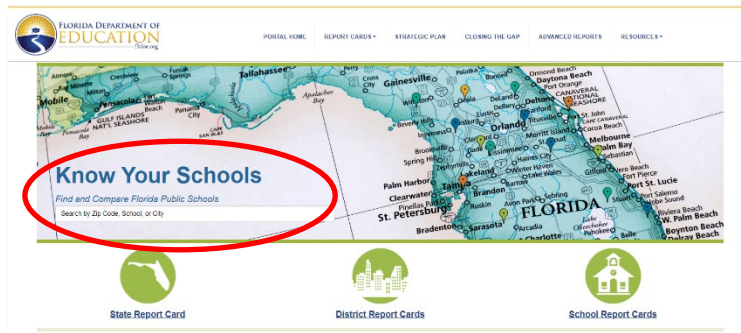

Map and Compare Tool:

Use the **Map and Compare Tool** to search for schools. Begin by typing a zip code, school name, or city name, and a list of matched options will display. Click the desired item to search.

This option allows you to view the location of schools within a specified radius on a map.

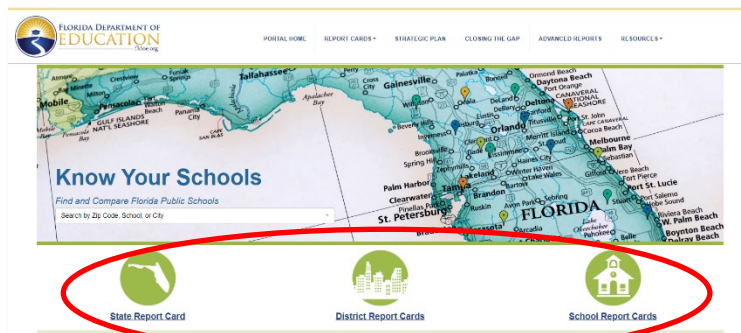

Note: The default radius is 5 miles. This can be adjusted up to 25 miles.

You can also filter the schools and compare an overview of information for up to 3 selected schools.

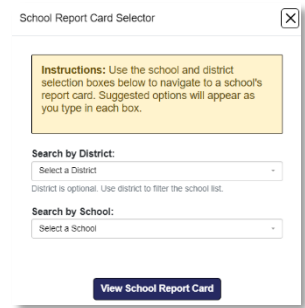

Navigation Icons:

Use the **State Report Card**, **District Report Cards**, or **School Report Cards** icons to go directly to a report card.

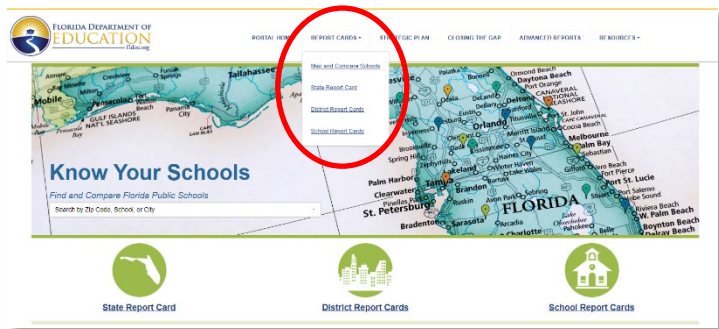

A search box will appear for the School or District Report Cards. You can use the dropdown list or begin typing a district or school name in the corresponding box, and a list of matched districts or schools will display.

Select the district or school name and click the **View Report Card** button.

Navigation Bar Menu:

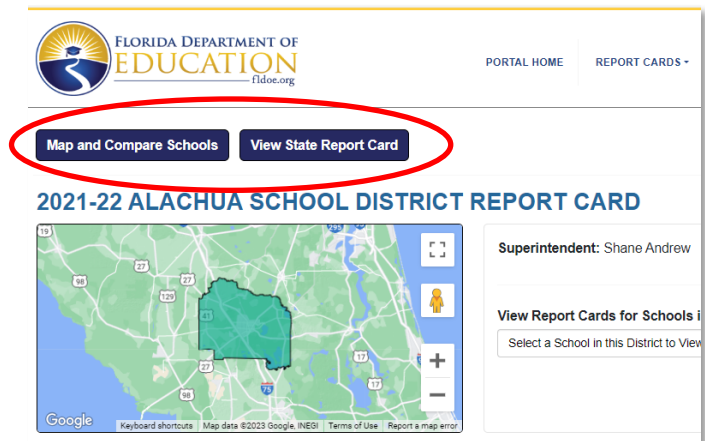

From any page within the [Know Your Schools Portal](#), use the Report Cards link in the **top navigation bar** to go to the Map and Compare Tool, State Report Card, District Report Cards, School Report Cards, or Prior Year Report Cards.

Navigation Buttons:

From any Report Card, use the **Map and Compare Schools** button to quickly navigate to the **Map and Compare Tool**.

The **View State Report Card** button provides convenient navigation to the State Report Card from District and School Report Cards.

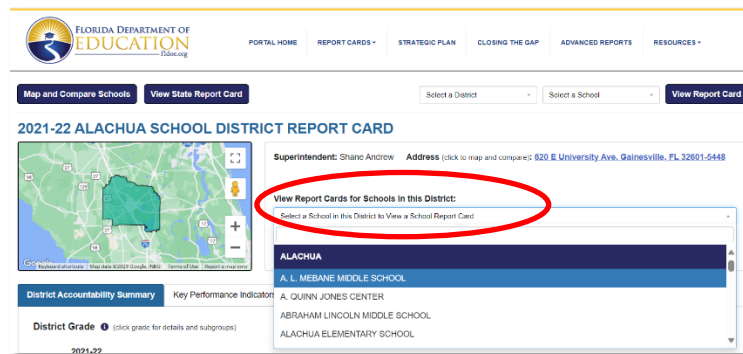

District and School Selectors:

From each Report Card, you can use the dropdown list or begin typing a district or school name in the corresponding box, and a list of matched districts or schools will display. Click the **View Report Card** button to find the selected District or School Report Card.

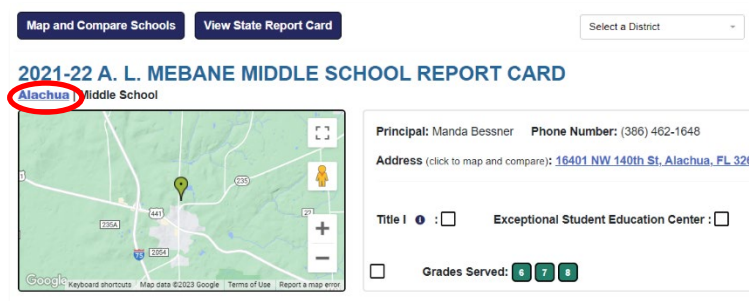

School Dropdown List:

From a District Report Card, use the **View Report Cards for Schools in this District** dropdown list to find schools for the selected district.

District Name Link:

From a School Report Card, use the district name link to navigate to the District Report Card.

SPECIAL ICONS

The **information icon** provides additional information about terms or concepts presented in the Report Cards. Click the icon to show an explanation.

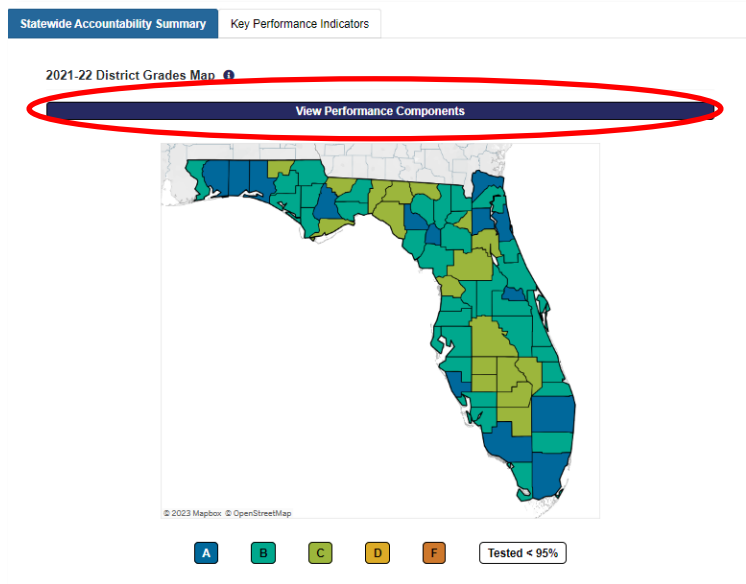

As you scroll down a page in the Report Cards, the **Up Arrow** located on the lower left hand side of the page allows you to quickly jump back to the top of the page.

STATE PERFORMANCE COMPONENTS

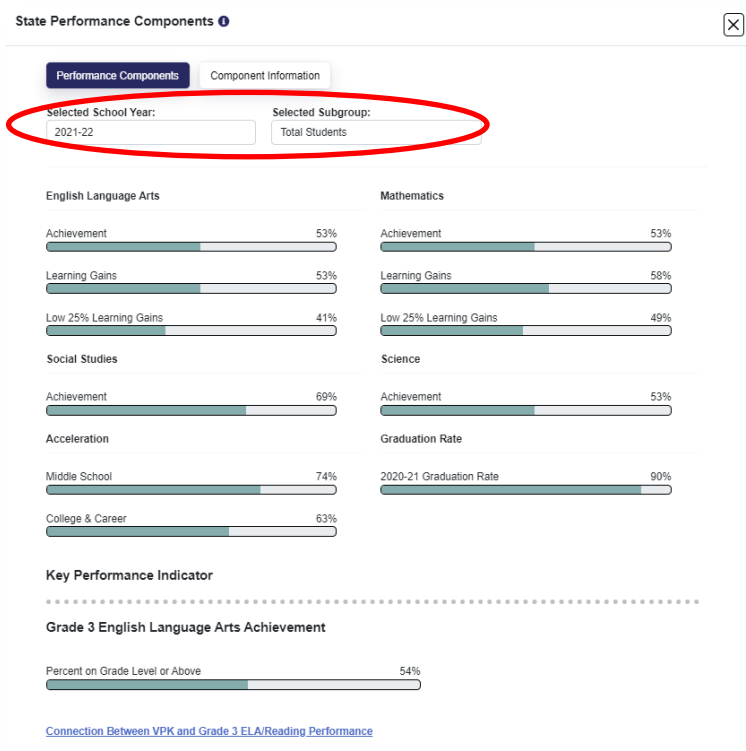

State Report Card Accountability Components:

On the State Report Card, click the **View Performance Components** header to view a summary of the statewide accountability components.

Performance Components:

Use the **Selected School Year** and the **Selected Subgroup** dropdown menus to view different years and subgroup performance.

Performance Components Definitions:

Explanations that correspond with the charts are located under the **Statewide Component Information** button to provide the user with an overview and important details regarding each of the accountability components.

State Performance Components ⓘ

Performance Components
Component Information

School Grades provide an easily understandable way to measure the performance of a school. Parents and the general public can use the school grade and its components to understand how well each school is serving its students. Schools are graded A, B, C, D, or F.

A School's Grade May Include up to Eleven Components: There are four achievement components, four learning gains components, a middle school acceleration component, as well as components for graduation rate, and college and career acceleration. Each component is worth up to 100 points in the overall calculation. The number of points earned for each component are added together and divided by the total number of available points to determine the percentage of points earned.

Four Achievement Components: The four achievement components are English Language Arts, Mathematics, Science, and Social Studies. These components include student performance on statewide, standardized assessments, including the comprehensive assessments and end-of-course (EOC) assessments. The component measures the percentage of full-year enrolled students who achieved a passing score.

Four Learning Gains Components: These components are learning gains in English Language Arts and Mathematics, as well as learning gains for the lowest performing 25% of students in English Language Arts and Mathematics. These components include student performance on statewide, standardized assessments including the comprehensive assessments and EOC assessments for the current year and the prior year. The components measure the percentage of full-year enrolled students who achieved a learning gain from the prior year to the current year.

Middle School Acceleration: This component is based on the percentage of eligible students who passed a high school level EOC assessment or industry certification.

College and Career Acceleration: This component is based on the percentage of graduates from the graduation rate cohort who earned a score on an acceleration examination (AP, IB, or AICE) or a grade in a dual enrollment course that qualified students for college credit or earned an industry certification. College and Career Acceleration is determined using prior-year data. The year reflected in the charts is the year these components were used to calculate the school or district's grade.

Graduation Rate: The graduation rate is based on an adjusted cohort of ninth grade students and measures whether the students graduated within four years. Since graduation rates are calculated at the end of the year, this component is a lag measure and uses the prior year's graduation rate for the current year's school and district grade calculation. The year reflected in the charts is the year these components were used to calculate the school or district's grade.

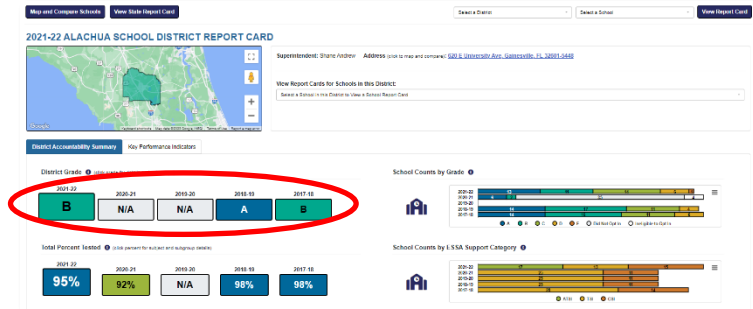

Minimum Number of Students for Inclusion in Florida's Accountability System: A school receives a grade based solely on the components for which it has sufficient data. Sufficient data exists when at least 10 students are eligible for inclusion in the calculation of the component. If a school has less than 10 eligible students with data for a particular component, that component is not calculated in the school's grade. See [Section 1008.34\(3\)\(a\), Florida Statutes](#) for more details.

For information on school grades, see the [School Grades Overview \(PDF\)](#) and the [Guide to Calculating School Grades, District Grades, and Federal Percent of Points Index \(PDF\)](#).

DISTRICT AND SCHOOL PERFORMANCE COMPONENTS

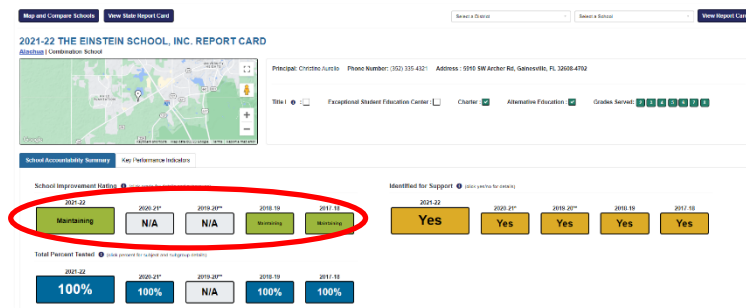

District/School Grades:

The school or district’s overall grade or school improvement rating is displayed in the upper-left quadrant of the report card under the **Accountability Summary** tab.

School Improvement Rating:

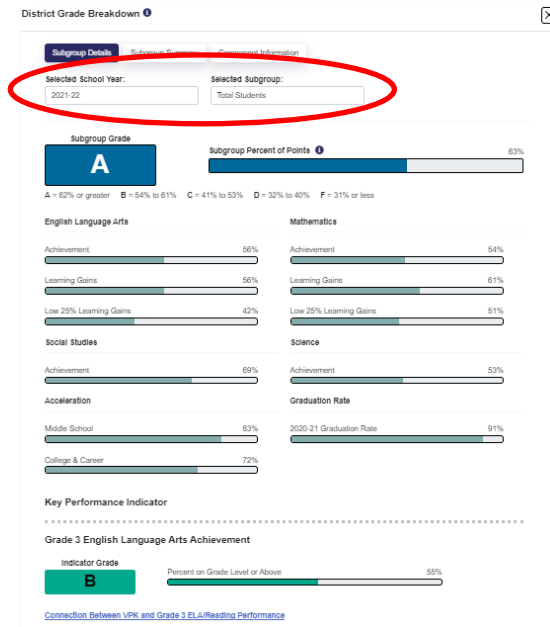

Click the grade or school improvement rating to see a breakdown of the components that go into the district grade, school grade, or school improvement rating calculation; the district or school subgroup summary; and additional information related to Florida’s accountability system.

Performance Component Breakdown:

The breakdown of the components that go into the district grade, school grade, or school improvement rating calculation is available for all students as well as specific subgroups required by ESSA.

Use the dropdown menus to select a different year and/or subgroup to see that specific year and subgroup’s performance on each component of the overall grade or rating.

District/School Grade Subgroup Summary:

Click the **District or School Grade Subgroup Summary** button to view the overall grade applied to each subgroup side-by-side.

Use the **Selected School Year** to view this summary for additional years.

District Grade Breakdown

Subgroup Details | Subgroup Summary | **Component Information**

District Grades provide an easily understandable way to measure the performance of a district. Parents and the general public can use the district grade and its components to understand how well each district is serving its students. Districts are graded A, B, C, D, or F, and these grades are calculated for each county-based district.

A District's Grade May Include up to Eleven Components: There are four achievement components, four learning gains components, a middle school acceleration component, as well as components for graduation rate, and college and career acceleration. Each component is worth up to 100 points in the overall calculation. The number of points earned for each component are added together and divided by the total number of available points to determine the percentage of points earned.

Four Achievement Components: The four achievement components are English Language Arts, Mathematics, Science, and Social Studies. These components include student performance on statewide, standardized assessments, including the comprehensive assessments and end-of-course (EOC) assessments. The component measures the percentage of full-year enrolled students who achieved a passing score.

Four Learning Gains Components: These components are learning gains in English Language Arts and Mathematics, as well as learning gains for the lowest performing 25% of students in English Language Arts and Mathematics. These components include student performance on statewide, standardized assessments including the comprehensive assessments and EOC assessments for the current year and the prior year. The components measure the percentage of full-year enrolled students who achieved a learning gain from the prior year to the current year.

Middle School Acceleration: This component is based on the percentage of eligible students who passed a high school level EOC assessment or industry certification.

College and Career Acceleration: This component is based on the percentage of graduates from the graduation rate cohort who earned a score on an acceleration examination (AP, IB, or AICE) or a grade in a dual enrollment course that qualified students for college credit or earned an industry certification. College and Career Acceleration is determined using prior-year data. The year reflected in the charts is the year these components were used to calculate the school or district's grade.

Graduation Rate: The graduation rate is based on an adjusted cohort of ninth grade students and measures whether the students graduated within four years. Since graduation rates are calculated at the end of the year, this component is a lag measure and uses the prior year's graduation rate for the current year's school and district grade calculation. The year reflected in the charts is the year these components were used to calculate the school or district's grade.

Minimum Number of Students for Inclusion in Florida's Accountability System: A district receives a grade based solely on the components for which it has sufficient data. Sufficient data exists when at least 10 students are eligible for inclusion in the calculation of the component. If a district has less than 10 eligible students with data for a particular component, that component is not calculated in the district's grade. See [Section 1008.34\(3\)\(g\), Florida Statutes](#) for more details.

For information on district grades, see the [School Grades Overview](#) (PDF) and the [Guide to Calculating School Grades, District Grades, and Federal Percent of Points Index](#) (PDF).

SCHOOLS IDENTIFIED FOR SUPPORT

The **Identified for Support** section under the **School Accountability Summary** tab provides details about if and why a school is identified for support, including details about the new Federal Index.

Click the **Yes** button to see the **Overall Federal Index** and details about specific **underperforming subgroups**.

Support Breakdown ✕

Selected School Year:

Overall Federal Index ⓘ

Overall Federal Index: 56%

Low Overall Federal Index = 40% or Less

A school not identified for CSI but has one or more subgroups with a Federal Index below 41% is identified for **Additional Targeted Support and Improvement (ATSI)**.

A school not identified as CSI that has at least one consistently underperforming subgroup with a Federal Index below 32% for three consecutive years is identified for **Targeted Support & Improvement (TSI)**.

A school identified in any of the following four ways: 1) has an overall Federal Index below 41%; 2) earns a D or F school grade; 3) has a graduation rate at or below 67%; or 4) has a Federal Index below 41% in the same subgroup(s) for six consecutive years is identified for **Comprehensive Support & Improvement (CSI)**.

The Florida Department of Education will provide tiered support to school districts to reduce the achievement gap by increasing student achievement in schools identified for ATSI, TSI and CSI.

ACCORDIONS

The Report Cards contain **subsections** organized by content area accordions. The accordion header has a blue background with white text that can be expanded or collapsed by clicking the text to reveal related charts, tables, and/or details.

Expandable subsections called accordions may contain infographics that provide quick visuals of information, as demonstrated here in the Population and Enrollment accordion.

Accordions contain **tabs** located at the top of each open subsection. These tabs provide specific content related to the subsection. Click the tab title to open the related content. A green tab indicates the current open tab.

Content tabs may contain a **General Information and Data Notes** section that provides explanations related to the charts and tables, as well as links to additional details.

General Information and Data Notes

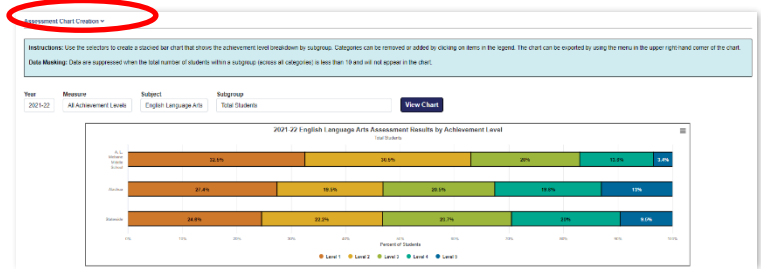

Students' performance on Florida's statewide assessments is categorized into five achievement levels. The table below provides information regarding student performance at each achievement level.

Achievement Level 1	Achievement Level 2	Achievement Level 3	Achievement Level 4	Achievement Level 5
Inadequate: Highly likely to need substantial support for the next grade	Below Satisfactory: Likely to need substantial support for the next grade	On-Grade-Level: May need additional support for the next grade	Proficient: Likely to excel in the next grade	Mastery: Highly likely to excel in the next grade

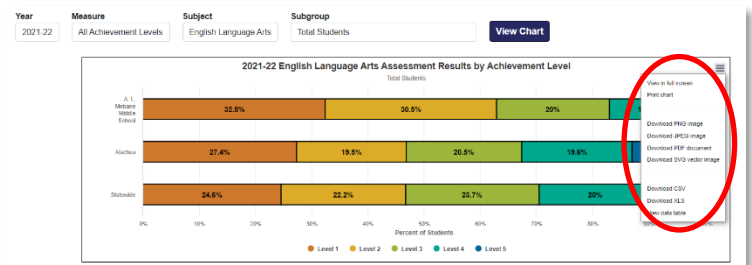

Students must be either full-year enrolled in the school or enrolled in an alternative school or ESE center school to be included in the achievement component for a school. Therefore, these numbers and percentages may vary slightly from assessment results published elsewhere that include all test takers. Detailed information on students who are included in the achievement components for accountability purposes can be found in the [Guide to Calculating School Grades, District Grades, and Federal Percent of Points Index \(PDF\)](#).

Alternative schools and exceptional student education (ESE) center schools may choose to receive a school improvement rating in lieu of a school grade. Detailed information about school improvement ratings can be found in the [Guide to Calculating School Improvement Ratings \(PDF\)](#).

Content tabs may contain a **Chart Creation** section that allows users to select filters and generate charts that provide a visual representation of the related data.

Charts can be exported using the Chart Content Menu icon  located in the upper-right corner of the chart. A dropdown list provides several chart export options. Click the desired option to export and save the chart.

Content tabs may contain a **Data Table Creation** section that allows users to select filters and generate tables that provide numbers and percentages of the related data.

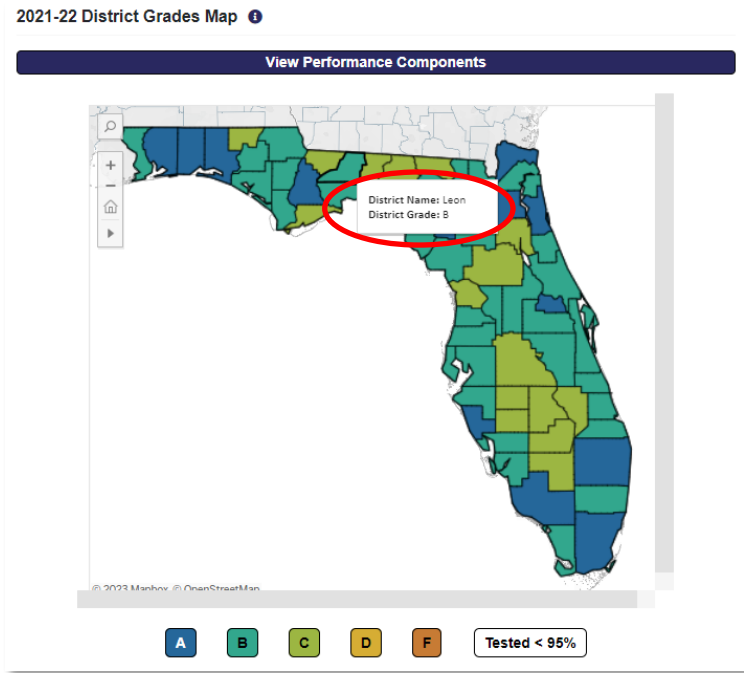

Category	Students Who Participated in the Assessment	Students Who Didn't Participate in the Assessment
Total		
Total Students	1,697,929	24,963
Subgroups		
Economically Disadvantaged	949,624	15,727
Non-Economically Disadvantaged	748,302	9,136
English Language Learners	291,683	2,766

Tables include several export options in the upper-right corner of each table.

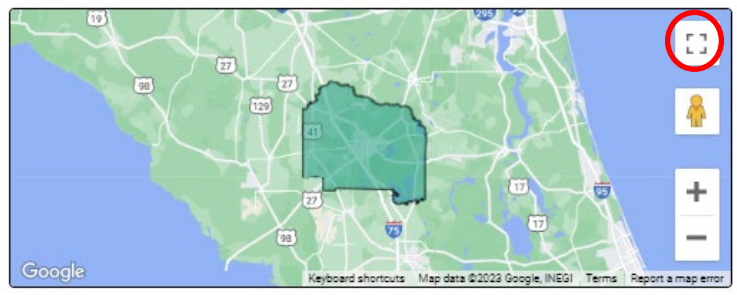

REPORT CARD MAPS

Maps are interactive. Hover the cursor over the State Report Card Map to see the district name and most recent grade.

Click a district on this map to jump straight to the District's Report Card.

Use the expansion button on the District and School Report Card Maps to toggle to a full screen view.

Click and drag the pegman onto the school pin on the map for a street view of the location.

Click the district or school address to compare schools in the **Map and Compare Tool**.

Map and Compare Schools View State Report Card Select a District Select a School View Report Card

2021-22 ALACHUA SCHOOL DISTRICT REPORT CARD

Superintendent: Shane Andrews

Address (click to map and compare): **620 E University Ave, Gainesville, FL 32601-5448**

View Report Cards for Schools in this District:

Select a School in this District to View a School Report Card

MAP AND COMPARE PUBLIC SCHOOLS TOOL

The **Map and Compare Tool** allows you to search for schools using the district name. You can include up to 3 districts at once.

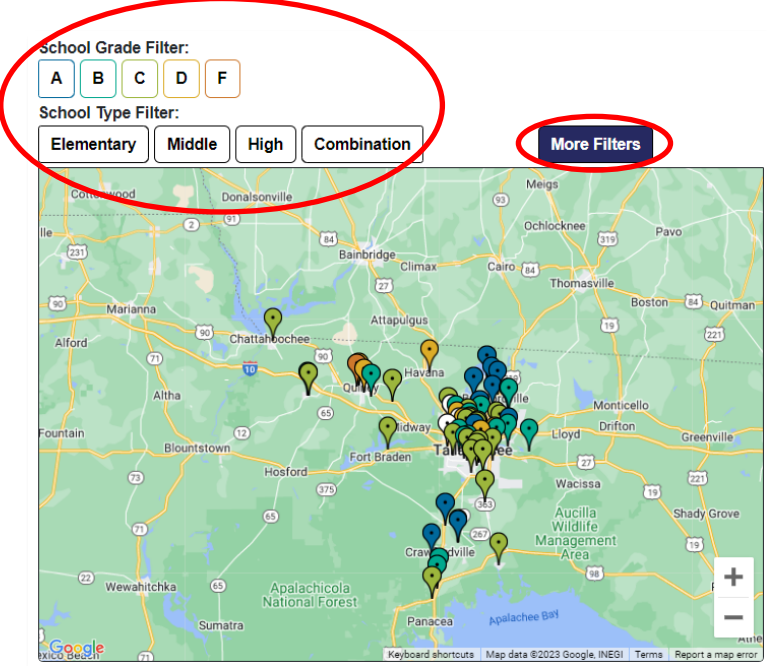

Or, you can search by radius from a school, city, or zip code. The default radius is set to 5 miles from the school, city, or zip code selection; however, the user can adjust this distance up to 25 miles using the **distance slider**.

Map Filters:

You can filter the displayed schools by using the **school grade or school type filters**.

The default displays all schools that received a school grade in the most recent year and are classified as a K-12 General Education School.

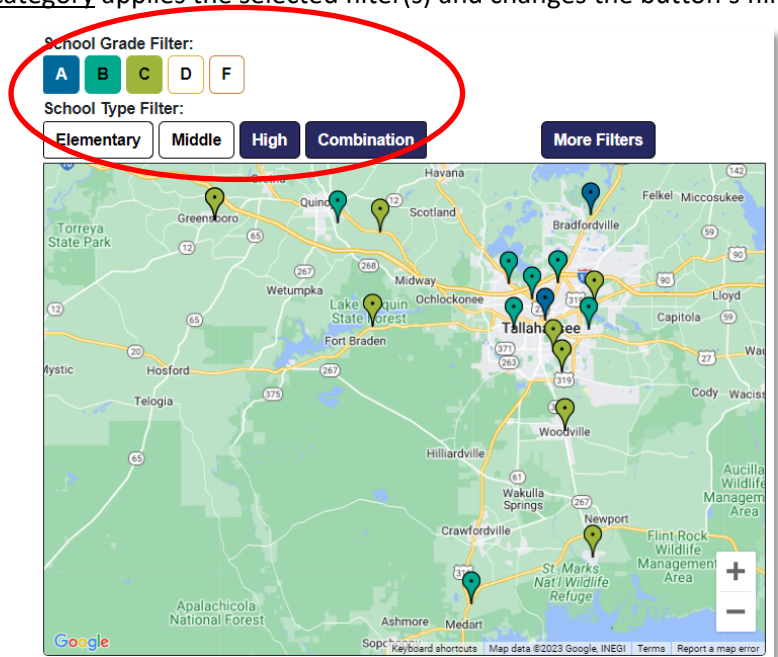

Click the **More Filters** button for additional filter options (see page 18).

Note: Filter buttons are not filled with a color until they are selected and a filter is applied.

Notice that a clicked button within a filter category applies the selected filter(s) and changes the button's fill color.

Only schools that meet the condition(s) of the colored (filtered) buttons within the filter category are displayed.

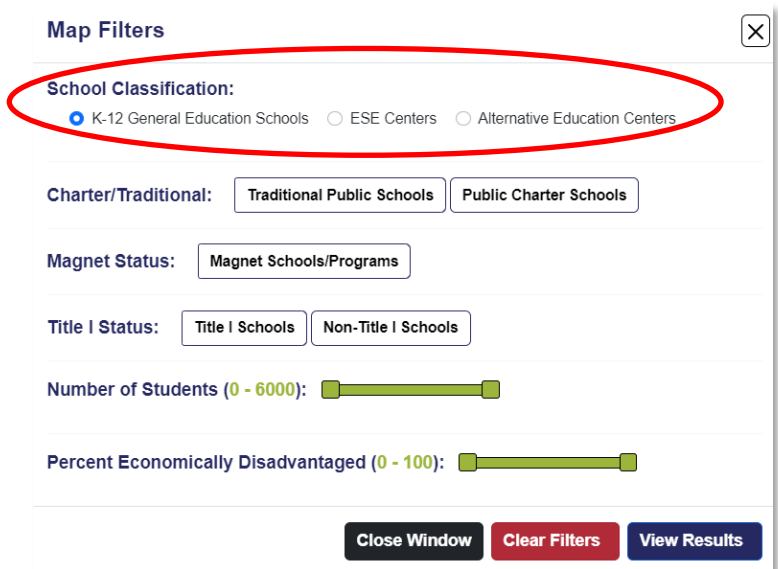

If no buttons are selected within a filter category, then no filters are applied for that category.

The **More Filters** button displays additional school filters.

The **School Classification** radio buttons allow you to toggle between K-12 General Education Schools, ESE Centers and Alternative Education Centers within the selected area.

Note: The default is set to K-12 General Education Schools.

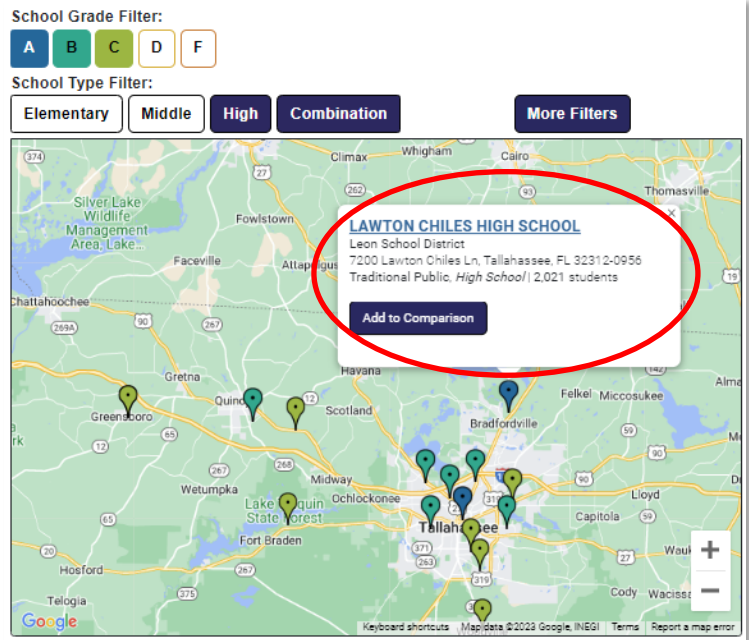

Selected filter buttons are filled with color to indicate that the filter condition is applied within a specific filter category.

Caution: Applying too many filters can result in all schools being filtered out of the search area.

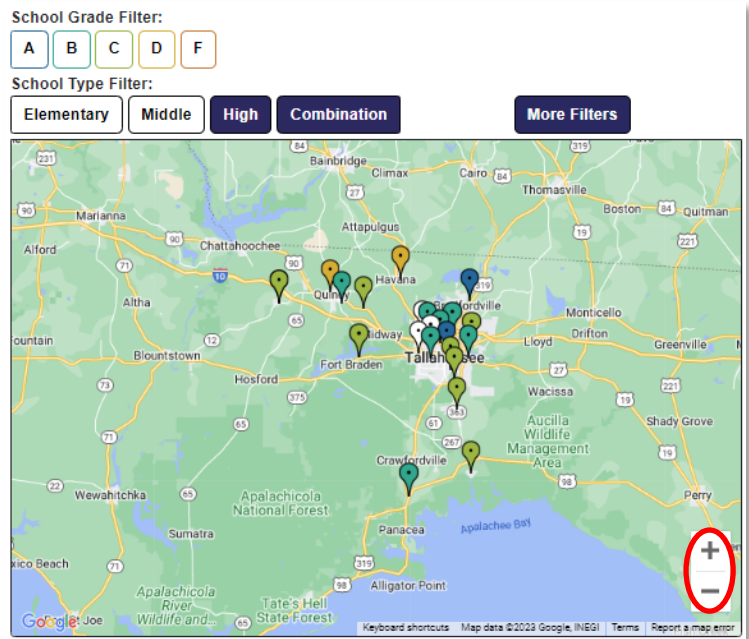

Click the **More Filters** button to open the Map Filters again and deselect a specific filter by clicking the color filled button or clicking the **Clear Filters** button to clear all filters made in the Map Filters section.

Hover your mouse cursor over the pins/markers in the map to display select information about a school.

You can use this pop up to add the school to your comparison list, or click the name of the school to go directly to the school's Report Card.

Use the + or - icons located in the lower right-hand corner to adjust the map zoom level.

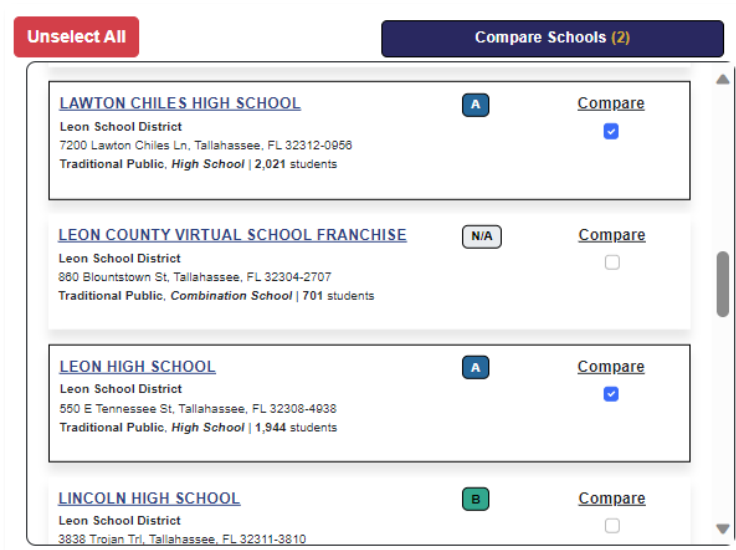

A list of schools will appear on the right side of the Map and Compare page that corresponds to the map and any filters that are applied.

Click the **Compare** check box to add a school to your comparison list.

A count of selected schools will display in the **Compare Schools** button.

Once you have selected the schools for your comparison, click the **Compare Schools** button.

Note: You can compare up to 3 schools at one time.

A Compare Schools list will appear where you can:

1. Click the corresponding 'X' icon to remove a school from your comparison.
2. Click the **Close** button to return to the map and make adjustments.
3. Confirm the list is correct and click the **View Comparison** button.

The **View Comparison** button will open a new browser tab containing a side-by-side comparison of key measures for the selected schools.
